# ADVANCED SURGICAL COURSE OFFERINGS

## ADVANCED SURGICAL SIMULATION COURSE

The Advanced Surgical SimLab course is designed for clinicians who are actively placing implants and would like to expand and/or refine their surgical knowledge, skills and techniques. This course provides clinicians with a unique opportunity to learn complicated implant procedures, including regenerative techniques and immediate implant loading. Simulated patient scenarios will be reviewed and practiced during hands-on sessions with state-of-the-art laboratory mannequins and anatomical models.

Key areas of emphasis during the surgical course may include:

- Autograft and allograft block placement
- Sinus lift procedures
- One-piece implant placement
- Immediate implant placement
- Ridge-splitting procedure
- Treatment of peri-implantitis
- Other topics to be announced

**COURSE LENGTH: 2 DAYS**

For more information about course enrollment, contact a Zimmer sales representative at 1 (800) 854-7019.
