

# Virtual planning. Accuracy you can trust.

SimPlant®  
Treatment  
Planning  
Software

Take your case planning to the next level with SimPlant® Treatment Planning Software and Zimmer® Guided Surgery Instrumentation for the *Tapered Screw-Vent®* Implant System. Simplify treatment planning with the user-friendly, yet highly sophisticated SimPlant® 3D case planning tools. Zimmer Guided Surgery Instrumentation, along with Zimmer-compatible SAFE SurgiGuide® drill guides, aid in more precise implant site preparation and help to enhance restorative outcomes.

*SAFE SurgiGuide® drill guides can be purchased separately from Materialise Dental.*

## 1 VISUALIZE AND PLAN

- Step-by-step treatment planning based on 3D imaging of patient anatomy and proposed prosthesis; includes virtual *Tapered Screw-Vent* Implant placement and abutment selection

## 2 GUIDE

- Implant site preparation with Zimmer Guided Surgery Instrumentation and SAFE SurgiGuide® drill guides

## 3 RESTORE

- Restoratively driven planning helps to achieve esthetic results with Zimmer Dental's broad selection of restorative products

» SimPlant® Treatment Planning Software Starter Kit.

# Select SimPlant® software. Guide your practice with care.

Plan your next *Tapered Screw-Vent* Implant case using SimPlant®, the industry-leading software for computer-guided implant dentistry. From 3D treatment planning of your *Tapered Screw-Vent* case, to guided implant placement with *Zimmer* Guided Surgery Instrumentation, to esthetic outcomes—plan your cases with greater accuracy and confidence. SimPlant® provides different software options to best meet the unique needs of your practice: SimPlant® Planner, SimPlant® Pro, and SimPlant® Master. Plan, collaborate with your team, and access comprehensive global training, education, and customer support.
